

RISK IS SOMETHING WORTH LISTENING TO

RISK MANAGEMENT ESSENTIALS PTY LTD

Risk Management Essentials (RME) are focused on providing solutions-based programs and products for SME's, businesses, clubs and associations.

We are passionate about personalised client services at a cost-effective price providing value every step of the way. Every business today has risks, some of these risks can be extremely serious, for example, OHS/WHS legislation falls under a criminal code of practice so non-compliance can result in not only serious injuries or fatalities but can also include heavy fines, prison or both. Cyber security risk has the ability to bring operations to a halt with enormous side effects.

As a business owner, director, manager, board or committee member, all risks require your attention. At RME we play an important role in informing Australian business in best practice, work health & safety and risk management.

You don't know what you don't know, and the trouble is, how do you fix a problem you're not even aware of?

What support do you have?

Where do you start?

Whatever your requirement we have a solution, with either an on-site assessment or management plan tailored for you, or our industry specific on-line assessment, there is an affordable option available for all businesses.

Our goal is to make the often-complicated risk management issues simple, easily addressed and affordable.

COMPANY CULTURE – SAFETY CLIMATE

Workplace Safety and risk management and participation is an investment with measurable benefit; engagement and improvement are an asset for your business.

We live in a world of rapidly changing legislation, regulation and multiplying risks, with your commitment in a systemised approach to a healthy and safe workplace, you will in turn promote a great company image and loyalty and trust from your team.

Good OHS/WHS = better productivity and improved culture.

THE FIRST STEP IS SIMPLE....

Contact RME for a conversation and arrange an obligation free meeting where we will discuss your requirements and formulate a plan to move forward.
